## CLIMATE NEUTRAL BY 2050

The European Union aims to be climate neutral by 2050; an ambition that's known as the 'Green Deal'. Under the Green Deal, a great deal of new legislation is being proposed, revised or already enacted.

The different regulations and directives address several different perspectives of the climate neutrality effort.

Here, we give you an overview, including the current status of each proposal and the area of applicability.

## Instrument status (as of July 2024):

- IMPLEMENTED**  
This Directive has been implemented into Dutch legislation, while Regulations are not subject to implementation.
- ADOPTED**  
European lawmakers have reached consensus on the final version of the proposal, which has been formally adopted following a vote.
- UNDER NEGOTIATION**  
The law is currently being negotiated with EU lawmakers.

## Instrument referenced in:

- Circular Economy Action Plan
- Zero Pollution Action Plan
- Biodiversity Strategy
- Fit for 55 Package
- Farm to Fork Strategy
- Sustainable & Smart Mobility Strategy
